Push sweepers

S 650

Cleaning around the house: With the Kärcher S 650 you can sweep paths, roads, driveways and yards up to five times faster than with a broom and pan. Sweepings are immediately collected in the container so they are not blown about. Simple, fast and clean.

Standard accessories:

- Push handle height adjustable in two stages
- Stowage position
- Stand-up waste container

Order no.: 1.766-300.0

Push sweepers

S 650

Details

Description

S 650: Powerfull and convenient. The push handle with four-way height adjustment can be set to suit the user perfectly. If necessary, the push handle can be folded flat to take up a minimum of storage space. The study roller brush and the two side brushes on the S 650 provide a sweeping width of 650 mm. Large areas as well as edges and corners are swept fast and thorough. The S 650 ´s waste container is quickly removed and is designed to stand on its own.

Application

Easy cleaning of pathways, roads, yards, driveways and garages.

Features & Benefits

Adjustable & ergonomic push handle Comfortable handling, fits different body sizes perfectly Stowage position The unit can folded completely flat for space saving storage Stand alone waste container with integrated handle Makes the emptying easier
